

AMENDMENT TO THE SPECIFICATION

Amend paragraph 0028a as follows:

[0028a Amended] Fig. 1A shows the position of the piezoelectric torch flame ignition device [igniter] with respect to the mouth piece, in which the torch flame ignition device [igniter] is spaced from the bottom of the combustion chamber[.] , as can be seen in FIG. 1, such that the torch flame when ignited extends in a direction generally perpendicular to mouth piece pipe 16 and across the bottom of the combustion chamber.

AMENDMENT TO THE CLAIMS

Amend claim 1 as follows:

Claim 1. (Twice Amended) A smoking device comprising:

a combustion chamber comprising a bowl for containing combustible material to be burned;

a mouth piece pipe communicating with the combustion chamber; and

a piezoelectric torch flame ignition device extending into the combustion chamber above the mouth piece pipe and below the bowl for generating a torch flame capable of extending into the combustion chamber in a direction generally perpendicular to the mouth piece pipe and across the bottom of the combustion chamber to ignite combustible material within the combustion chamber.

AMENDMENT TO THE DRAWINGS

Please accept the attached replacement sheet for drawing sheet 3 of 4. In the replacement sheet previously submitted, the letter "A" was omitted from the figure identifier "FIG. 1".
